# J.HARVEST & FROST CORPORATE SHIRTMAKER

#### J.HARVEST & FROST

Our mission is to bring passion and aesthetics to your workday. J.Harvest & Frost is built on the belief that aesthetics, quality design and precision craftsmanship play fundamental parts in our lives. In other words – we believe in order to thrive and find our passion while we work - we need to surround ourselves with things which inspire and encourage us.

#### WE ARE SHIRTMAKERS

We are a work shirt brand for men and women - and in order to succeed in our mission, and become "fuel for your passion", we offer well-made, detailed and affordable work shirts of the highest quality. We aim to be that undefinable, yet powerful, intangible asset which aesthetics represents in your workday. J. Harvest & Frost was established in 2014 as a result of a collaboration between two brands – James Harvest Sportswear, rooted in U.S. college fashion with worldwide distribution and Frost, with its focus on tailored, well-cut garments in a small scale. Two excellent concepts brought together in one brand.

We started on a journey to develop our lines of high quality work shirts for men and women.

To be there with you – everyday - at the workshop, the office or at the pub – we set out to develop a collection of shirts which would meet the needs of those occasions. Quality, durability, and ruggedness became our lodestars.

We found inspiration in early 20th century fashion, as well as books, movies, brands and classic designers. We were determined to create something unique – but still at affordable prices. We wanted to make each garment something we would've loved to wear ourselves.

#### NEVER DONE

Still, people's expectations and needs changes, so we realize, with delight, that our pursuit for that perfect work shirt will be never-ending and we'll continue our journey and search for the best fit, materials, details, stitches and techniques.

Making these products demands a holistic view on design, and we recognize that aesthetics are more than visual beauty. We live by the rule that quality design is the sum of three inseparable variables; excellent craftsmanship, the best materials and integrity.

So, while we're on our quest to give you that little bit of extra beauty in you workday – rest assured – we have got your back. Work hard – and put all your energy into your own dreams. We'll make sure you're always dressed for the occasion.

# BLACK BOW

THE ULTIMATE IRON FREE SHIRT WITH REVOLUTIONARY SPILL PROTECTION, AND PROBABLY THE LAST GREAT SHIRT YOU'LL EVER NEED. SAY GOODBYE TO IRONING, UNTIMELY COFFEE SPILLS AND BUSINESS LUNCH STAINS. THANKS TO ADVANCED NANOTEX TECHNOLOGY, THE BLACK BOW HAS YOUR BACK. BLACK BOW IS SET OUT TO BE THE WORLD'S BEST WORKING SHIRT. YOU'RE NOW ABLE TO TEST IT IN ITS NATURAL ENVIRONMENT - YOUR LIFE.

#### SPLIT YOKE

The construction of the yoke involves splitting the yoke, rotating the parts in the correct angle and sowing them back together. This allows the fabric a bit more stretch which gives you improved freedom of movement and a better fit. We also added mechanical stretch in the material to make it comfortable to look this sharp. SOFT MODERN CUT AWAY COLLAR WITH HIDDEN BUTTON DOWN

No more of anti-gravity collar. These collartips stays put with the hidden button down feature.

#### ELASTIC COLLAR BUTTON

In the strive to make the worlds best working shirt, we made a pledge to ourselves. Before retiring we would make a patented solution to the problem many (including ourselves) has. Closing the top button in the collar, is for some very uncomfortable or even impossible. This should be possible to amend.

We have taken the first step in that direction. The top collar button is fastened with elastic tread instead of the traditional one. This makes room for extra movement and is more comfortable to wear. A small, but important, step towards our big aim at making the finer wear work.

#### NEVER IRON

Everybody knows about Non Iron. Sometimes it's true and sometimes, not so much. We already have Non-Iron on most of our shirts, and we are confident that you have tried it and found it to be one of the ones that works. We were not content. There is still some room for improvement, we said... Which of course there was. Enter; Never Iron. Life is bigger than creases.

A never iron shirt stays crisp through out the day, due to the taped seams and the wrinkle resist treatment. The activator for the never iron function is however moisture. So it needs to get damp or wet to straiten out the small amount of creases accumulated during the use of the shirt.

#### NANO TECHNOLOGY

Beside our regular acclaimed style and finish, we went further into the construction of the fabric. We went far into the fabric. We enhanced the fibres on a molecular level, maintaining the feel and look of the cotton, but made it more resistant towards liquids and oils. Both from the outside and the inside. So if you spill, or get a nervous sweat attack, minutes before your big meeting, you still look like a million bucks. Brush it of and nail that presentation.

Nothing beats the clean look of a solid dress shirt. But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts. A split yoke in back, medium cut-away collar and a 35 mm raised placket set the edge for this sharp, but classic shirt.

We might be one of very few brands that, at the present, can handle the combination NON IRON & STRETCH. It's a tricky combination, you see, which requires quite a lot of thinking, testing and developing to get all this performance into one single shirt. Luckily, we do enjoy the hard-work & developing. RB121 comes with stylish details, such as a passepoiled chest pocket and matching contrast colors at the right spots.

A new edgy shirt in the same spirit as the old Purple Bow 46. The microcord structure in the fabric, which is the same popular fabric as we use on RB29, makes it stand out compared to our classic twill. The fabric in combination with extreme cut-away collar and a new kick-ass paisley contrast, makes a bold statement. The contrast is obvious on the white, and more discrete on the luxurious navy fabric. Wear it with jeans and a blazer or with a suit and sneakers and you will look impeccable, from the office to the dinner party.

## YELLOW BOW 53

This shirt is taking the price conscious Yellow Bow-line to the next level with its high performance and eco-conscious choice of raw materials. A modern check- pattern at a fine twill weave combined with soft collar and cuffs gives the shirt a smart look. When you get the shirt in hand you will immediately recognize its more to it than catches the eye. The feather-light weight at first, silky soft handtouch from Tencell™ Lyocell as well, and the incredible stretch effect for your comfort, makes this shirt a master of performance. Same composition as Yellow Bow 52 .The shirt is also easy-care treated, so you can simply wash & wear it if you'd like.

#### INDIGO BOW 34

It has the look of a classic woven dress shirt, but the fabric is knitted not woven. If you like this fabric, you should check out Indigo Bow 131 on page 55, which is made in a similar fabric. It is like wearing a t-shirt, incredible comfort.

We used a high-end double 60 compact yarn, and added a soft treatment. This gives the shirt a luxurious out-view and silky touch. When using high quality yarn in a knitted fabric, you get a natural non-iron performance, so you simply wash it, hang dry it and wear it. We have strong confident in this new and innovative way of making fine shirts. Enjoy!

We mixed extra-fine Merino wool/ cotton yarn to get an all-season garment and benefits from 2 natural fibers. To keep up our responsible work as a brand, we use certified wool and carefully selected long staple U.S. Pima cotton. You can of course wash it in a washing machine. But keep in my mind – this is a Merino garment, it benefits of not being washed so often. Simply air it out when needed.

The yarn is a compact yarn with extra high twist. We added "super wash"-treatment, a technique in yarn production, for less pilling. In addition we made it with long staple U.S. Pima Cotton. This way we can make sure of high quality, soft touch and high performance. We aim for the best only. High quality & high performance.

The popularity of our technical car coat, and the good test reports, made it necessary for us to make a hooded version. And so was the parka born. It has the same technical performances as the car-coat, but we made it with a bit more bold attitude of a "big city-parka". Outside front pockets, long sloping tail in the back and more straight fit. The way you would want to wear it, providing you with the right feeling of style, luxury and versatility in any given day or occasion.
